### **Marks limited to colours**

Where it is indicated in the application, for registration of the mark to be limited to certain colours, such colours are not published, but the claims are mentioned.

### **Application Details**

The number of the application is indicated before the date of filing, followed by the particulars of the applicant. The address for service in case of a foreign applicant is also given. The conditions/limitations subject to which the mark is accepted are also indicated. Since the registry follows the multiclass application system, the relevant goods/services and classes are shown together.

### **Opposition**

Notice is hereby given that any person interested may, within three months from the date of

this publication, give to the Registrar notice of opposition to the registration of the mark, on Form 10 along with the prescribed fee.

## 2. NEW NOTICES

The registry would like to notify our client to follow the 13<sup>th</sup> Edition of the NICE Classification of Goods and services in classifying the goods & services owing to changes and additional classes being included in this edition.

To assist the Registrar in expediting the acceptance of trademark application for registration, agents and clients are reminded to ensure that the specification of goods & services set out in the application forms conform with the International Classification of Goods & Services (11<sup>th</sup> edition of the nice classification) as stated above.

**Following INID Codes are used in the Journals**

INID is an acronym for Internationally agreed Numbers for Identification of bibliographic Data

- (210)- Serial number of applications
- (220)- Date of filing of application
- (310) (320) (330)- Priority
- (511) – NICE classification for goods and services
- (526) – Disclaimer
- (540) - Reproduction of marks
- (571) – Description of mark
- (731) – Name and address of the applicant
- (750) – Address for correspondence or agent

***Note:*** The Registry does not guarantee the accuracy of its publication or undertakes any responsibility for errors and omissions or their consequences.

## **SUCCESSFUL EXAMINATION MARKS**

**GISADA**

**(731) Applicant Name and Address:** Swiss Fragrance GmbH  
Steigstrasse 26 CH-8406  
Winterthur, Switzerland

**(750) Representative:** VON HAVE FEY  
Rechtsanwälte Rechtsanwalt  
Sebastian Eble, LL.M.  
Neuer Wall 80 20354  
Hamburg, Germany

**(526) Disclaimer:**

**(571) Colour Claims:**

**(310)(320)(330): Priority:**

**(511) Goods/Services:** Class 3: Soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices.

Class 25: Clothing, footwear, head coverings (headgear).

Class 35: On-line retail store services offering cosmetic and beauty products as well as clothing and fashion accessories; retail sale, including retail sale (e-commerce) via global computer networks (the Internet), of goods of all kinds, particularly the aforesaid goods in classes 03 and 25; advertising including advertising by means of computer networks the sale of goods and services of all kinds; electronic commerce (e-commerce) services, namely provision of information on goods via telecommunication networks for advertising or sales purposes; providing online information on the selection of goods via a global computer network; compilation and systematization of information into computer databases.

| <b>(511) Goods/Services:</b>             | Class 1: Chemicals, additives, binding agents, coolants, chemical fluids, detergents and cleaning solvents for use in industry; carbide and ceramic compositions (granules and |                                                                                       |

powders); carbide powder; soldering fluxes; fire extinguishing and fire suppression compositions; tempering preparations; engineered ceramic and composite materials for heat transfer or thermal management applications; chemical coatings and organic compositions for use in manufacturing processes and in scientific and industrial research; artificial resins, unprocessed; metal hardening preparations; wetting agents for preventing the adhesion of clay; bentonite; viscose chemicals; chemical additives for drilling fluids; galvanizing compounds; chemicals for the manufacture of preparations for preventing corrosion; liquid coatings (chemical); hydraulic fluids; chemical releasing agents; putties, fillers and pastes for use in industry.

Class 4: Lubricants, fluids, industrial oils and greases; non-chemical additives for fuels, lubricants and greases; dust absorbing compositions; dust binding compositions; dust controlling and removing compositions

Class 6: Common metals, unwrought or semi-wrought; alloys of common metal; common metals in powder form [semi-wrought], brazing alloys; ironmongery; metal hardware; building and construction materials and elements of metal; reinforcement materials and elements of metal; anchoring materials and elements of metal; tensioning materials and elements of metal; goods of metal, namely rods, tie rods, poles, girders, bars, tendons, nuts, bolts, rock bolts, pins [hardware], fasteners, screws, set screws, sleeves and shims; goods of metal, namely, hoses, cables, ropes, strands, wires, fibers, piles, pillars, steel ribs, wedge anchors for bolts and cables, anchor heads, anchor supports, reinforcement sheets and forepoling sheets; expansion bolts; goods of metal, namely clips, retainer clips, metal clips for cables and pipes, valves (other than parts of machines), non-return valves of metal (other than parts of machines), thrust blocks, anchoring blocks, spacers, pipe spacers, cotters, lids, flanges, washers, rings (other than jewelry), spring rings of metal, nails, nail heads, expansion joints of metal, dowels, shell plugs for resin installation, cable ties of metal and cable bolts, straps and hooks of metal; goods of metal, namely cable clips, metal hexagon head bolts, metal cylinders for resins, sold empty, metal cylinders for cement, sold empty, wire mesh, meshes of common metal, formed meshes of common metal, wall panels of metal, fire resistant panels of metal for building, building structures, mats, ventilating ducts of metal, cable channels (non-electric) and hose hangers of metal; goods of metal, namely building and construction brackets, ladders, metal pipe supports, adjustable gutter supports of metal, beams, arches, metal water tanks, metal pipe joints, posts,

metal plugs for drill holes, cable clamps of metal, roof trusses, ceiling trusses and stay bolts of metal; connectors and couplings of metal for rods, poles, bars, bolts, screws, threaded bars, reinforcing bars, pipes, tubes, hoses, cables, ropes, strands, wires, walls and tunnel segments; portable buildings of metal; sliding mouldings and climbing structures and reinforcing materials of metal; fasteners of metal for use with drills, drilling rigs, and machines and machine parts.

Class 7: Anti-friction bearings for machines; anti-friction pads for machines; machines and machine tools for the cutting and forming of materials; conveyers; conveyer belts; power-operated tools; power-operated machine tools of metal, namely, power wire-drawing tools, power-operated pressing tools, power-operated grinding tools, power-operated threading tools, power-operated sharpening tools, power-operated chiseling tools, power-operated shearing tools, power-operated punching tools, power-operated piercing tools, power-operated broaching tools, power-operated reaming tools, power-operated drilling tools, power-operated milling tools, power-operated cutting tools and turning tools; inserts for power-operated chiseling tools, shearing tools, punching tools, piercing tools, broaching tools, reaming tools, cutting and turning tools; machine tool holders; machines parts, namely, blades and blade holders, wear plates and strips, bearings, as parts of machines; rock bolting rigs; cargo handling machines; cranes; casting machines; double belt presses; machine parts, namely, mandrels; mechanical diggers; mechanical disintegrators; earth moving machines, namely, excavators, loaders, scrapers; loading and unloading machines; mechanical and hydraulic lift hoists; forging machines; foundation work machines; granulating machines for chemical processes; hauling apparatus, used in the mining industry; lathes; lathe tools; earthmoving, construction, oil and gas extraction and mining equipment; mine working machines; fuel pumps for land vehicles; pneumatic transporters; pneumatic controls for machines, motors and engines; hydraulic and pneumatic hammers; pulleys being parts of machines; rolls for rolling mills; rolling mills; sifting machines; power-operated sprayers; sieves being machines; sieves being machine parts; gravel and dirt sorting and screening machines; mechanical spreaders; mechanical separators; motors and engines except for land vehicles; machine couplings and transmission components except for land vehicles; automatic vending machines; automated dispensing machines for tools and metal cutting tools; grinding machines for metal cutting; power-operated grinding wheels; grinding tools for grinding machines; earth

moving machines, namely graders, grading tools; carbide tip tools; truck boards, drilling pipes, hammer lifting bails, foot valve rods, drill tubes, shank adapters, drill bits, hand held rock drilling tools, integral drill steels, tapered and threaded rods, guide and drill tubes, drilling and bolting tools being machine tools; shank adaptors; raise boring tools; reaming heads; cutting tools for continuous mining machines; drills [power tools] for installation of strata support products; casing accessories and completion tools being parts of machines; reamers and reaming apparatus; drills, drill rigs and drilling equipment and apparatus; hydraulic rock drills; mining and tunneling jumbos; screw boosters (machine parts or machine tools); raise boring machines and reaming heads; bolters; excavators; hydraulic rotation heads; cone splitters (machine parts or machine tools); blast hole splitters (machine parts or machine tools); bolter miners; borer miners; road headers; drilling rods for machines; extension rods for machines; spanners for installing rock bolts and drill chuck extension spanners; pullers and extractors, pliers (machines); mineral ground tools; blocks and sleeves splitters (machine parts or machine tools); crushers and crushing apparatus; crushing chambers (machine parts); mantels and jaw plates; parts for crushers [machines]; screens [parts of machines]; scalping machines for mining and rock processing; breakers for mining and rock processing (machines); chisel and compacting tools; filters and filtration cartridges for mining and rock processing machines and equipment; hydraulic cylinders, blocks and valves; hydraulic pumps; drive shafts; radiators for mining and rock processing machines; oil coolers; axles for mining and rock processing machines; air compressors; hydraulic oil filtering units (machine parts or machine tools); exhaust systems; pressure accumulators [parts of machines]; liners for crushing and screening equipment for mining and rock processing; wear plates; impact bars [parts of machines]; parts and fittings for earth moving machines, namely ground engaging tools, buckets, shrouds, lips, adaptors and teeth; power-operated automation equipment namely, machines and industrial robots to move, assemble, test, inspect, fasten, transfer, dispense, sort, store, retrieve, align, position, and load and unload, for use in industrial applications namely, metrology, large-scale deployment, laser technology, fuel cell manufacturing, micro electromechanical systems, medical device manufacturing, semiconductors, solar manufacturing, and wire processing systems; down the hole hammers; horizontal directional hammers [machines or parts of machines]; cutters [parts of machines]; rock drills; impact drills [parts of machines]; percussion drills; pumps; rock stabilization and sole stabilization tools and equipment

for mining; tunneling tools and equipment for mining; chains for drilling modules; suction heads for drilling modules; tracks for machines; parts and components for tracks for machines; feed chains for machines; machine belts; starters for engines; alternators; turbochargers; bushings [parts of machines]; power transmission couplings for machines; parts, fittings and components for the aforesaid.

Class 9: Registered computer programs, registered operating programs, registered computer software, computers, peripheral equipment, simulators for steering and control of vehicles and crafts; remote control apparatus; electric installations for the remote control of industrial operations; electric installations for the remote control of cycling motions; telerupters; apparatus and instruments for conducting, transforming, storing, regulating or controlling the distribution of electric current; controlling devices and apparatus, regulating apparatus; measuring, detecting and monitoring instruments and apparatus, indicators and controllers; electronic control units and systems; electric installations for the remote control of industrial operations; electronic apparatus for the remote control of industrial operations; simulation apparatus and instruments; simulators; chargers; electrical cables; electric resistors; integrated circuits; semi-conductors; capacitors; electric resistances; fuel cells; apparatus for recording, transmission and reproduction of sound or images; blank magnetic data carriers, blank recording discs; communication equipment, namely, digital media, namely, CDs and DVDs; mobile apps; data processing apparatus, computers; computer operating systems; computer peripheral equipment; software for the calculation of data for machine tools and mine automation systems; measuring instruments and apparatus, namely, pressure measuring apparatus, temperature measuring apparatus, resistance measuring instruments; software for storage and calculation of temperature, strain and vibration information; temperature sensors, strain sensors, pressure sensors, vibration sensors and acceleration sensors; computer software, sensors, computer programs, and apparatus and instruments for measuring and controlling temperature and for controlling working capacity of tube systems; measuring instruments, sensors, software or computer systems incorporated in tubes and pipes of metal; computer software and computer programs; software applications; computer software packages; computer software platforms; computer hardware; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of metal-cutting tools and tooling

systems, mining equipment and tools, construction equipment and tools, stainless steels, special alloys and titanium, furnace products and heating systems, hard and super-hard materials; protective and safety equipment, namely, fire-extinguishing systems and sprinkler systems for fire protection; thermocouples; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; computer programs for use in production planning of the manufacture of industrial products; sensors; downloadable computer-assisted design (CAD) and computer-aided manufacturing (CAM) software for general use; downloadable computer software, namely, computer software for use with controlling cutting machines; downloadable computer software for use in planning, tracking and controlling manufacturing facility operations; downloadable computer software for controlling cutting machines; downloadable computer software for nesting and programming CNC cutting machines; computer programs recorded on magnetic media for use in providing engineering design and engineering drafting services; computer programs for use in machine tool industry; computer hardware and related computer software for controlling power-operated automation equipment; Monitoring instruments for use in geometrical inspection of industrial components, medical devices, and aerospace applications; computer hardware and related downloadable computer software for controlling instruments for use in geometrical inspection of industrial components, medical devices, and aerospace applications; downloadable and recorded computer software for the measurement, inspection, analysis and recording of three-dimensional shapes; electronic control systems for machines used in the measurement, inspection, analysis and recording of three-dimensional shape; calculating devices, computers and computer peripheral devices; joysticks for use with computers, other than for video games; Instruments for the measurement of object thickness and instruments for the measurement, analysis and recording of three-dimensional shapes; measuring apparatus and instruments, namely, robots and automated measuring machines for measuring and inspecting objects; electronic measuring equipment, inspection machinery and equipment, weighing machinery, measuring instruments, other measurement machinery and equipment, all for use with measuring apparatus and instruments; computer hardware, software, and sensors for use in connection with the design of drill bits, modeling, simulation, testing and analysis of drill bit and rock drilling tool performance, recordation and reporting of data and drilling variables, and selection and performance of drill

bits, rock drilling tools and equipment; data gateways; batteries; electrochemical cells and batteries; battery testers; computer hardware, software, sensors and electronic tags for early hazard detection, proximity detection and collision avoidance, worker safety, and evacuation and rescue in mining operations; computer hardware, software, sensors and electronic tags for monitoring of production, drilling, hauling, and overall equipment effectiveness and utilization and haulage efficiency in mining operations; open architecture automated software platform application systems comprised of a network central server, a network management software, gateway for network router modules, wireless nodes, namely, network router vehicle modem, vehicle transceiver and interface circuits and network router modules for vehicles; interface circuits and network routers for use in cap lamps for miners; sensor network module, namely, network routers that relay information from sensors placed in the mine to the network central server; computer hardware and software and sensors, all for 3D scanning, monitoring, and reporting and optimizing rock material flow and use of equipment fleet in mines and other rock excavation sites; computer software for use in relation to products for use within the materials technology, mining, construction and rock technology and metal working industries; parts, fittings and components for the aforesaid; downloadable computer software for blockchain technology; downloadable computer software for payment and exchange transactions involving cryptocurrencies; downloadable multimedia file containing artwork, text, audio, and video relating to industrial goods and human interest topics authenticated by non-fungible tokens (NFTs); downloadable virtual goods, namely, downloadable image and content files featuring professional tools and machines for industrial purposes, metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers, measurement machinery and publications for use in virtual worlds; downloadable virtual goods, namely downloadable image and content files featuring drill rigs, underground drill rigs, bolters, electric battery vehicles, underground loaders, underground trucks, mechanical cutting equipment, rock tools, rock drills, mining automation products, mining tools and equipment, tunneling tools and equipment for use in online virtual worlds; downloadable virtual goods, namely, downloadable image and content files featuring parts and accessories for mining machines and tools, parts and accessories for construction machines and tools, crushers, screeners, breakers, demolition tools, breaker booms, buckets, attachments for crushers, attachments for screeners

and compactor plates and artwork for use in online virtual worlds.

Class 11: Filters for air conditioners; dust filters.

Class 12: Vehicles for the mining, rock excavation, mineral exploration and construction industry, namely, vehicles with loading function, trucks, transport vehicles, and vehicles carrying machinery used to drill a wellbore; forklift trucks; trailers; trucks; vans; gearboxes; parts, fittings and components for the aforesaid.

Class 17: Flexible hoses, not of metal; rubber seals; rubber rings; seals of metal for preventing leakage of gases and fluids; non-metallic caps for rigid tubes; semi-finished resins for building, construction, structural and civil engineering, mining, tunnelling, earthmoving, rock stabilization and soil stabilization.

Class 19: Vapor deposited non-metal coatings [building and construction materials]; building and construction materials (not of metal); structural materials (not of metal) for construction purposes related to civil engineering, mining, tunnelling, earthmoving, rock stabilization and soil stabilization; sliding mouldings and climbing structures and reinforcing materials of wood; reinforcing elements of fibre composites for concrete; building and construction structures of fibre composites for earth and rock anchors; building and construction materials and elements, not of metal, for the construction and mining industries; cladding tubes of plastic; settable and anti-corrosive materials for injection into construction elements, namely mortars with an artificial resin and/or cement base; non-metallic roof trusses; non-metallic ceiling trusses; non-metallic reinforcing bars; non-metallic reinforcement materials, non-metallic panels and walls, burlap panels and walls for building, building mouldings, not of metal, non-metallic building materials in the form of grids and meshes, polymer building materials in the form of grids, non-metallic materials in the form of wires and fibres for building and construction; non-metal building materials for use in structural and civil engineering, mining, tunnelling, earthmoving, rock stabilization and soil stabilization; non-metallic building panels, non-metallic plates, non-metallic support plates, non-metallic fire-resistant panels, non-metallic girders, non-metallic lattice girders, non-metallic rigid pipes, finished plasters made of artificial resin for building, construction, structural and civil engineering, mining, tunnelling, earthmoving, rock stabilization and soil stabilization; non-metallic drainage pipes; roof, ceiling and

wall supports of concrete; non-metallic pillars; grout; grouting compounds; cement; cementitious compounds; concrete; mortar; clay; non-metallic ventilating ducts; non-metallic cable channels (non-electric); non-metallic beams; wood beams; non-metallic posts; non-metallic portable buildings; geotextiles; grouting cartridges containing synthetic resins for use in building and construction; cement cartridges for use in building construction; support and stabilization grids and meshes for use within mining and tunneling operations, namely non-metallic grids and meshes (not for building purposes); support and stabilization grids and meshes being geotextiles for use within mining and tunneling operations, namely polymer geotextile.

Class 20: Non-metallic bolts; non-metallic anchor bolts; non-metallic expansion bolts; fiberglass bolts; non-metallic expansion shells; non-metallic dowels; fiberglass dowels; non-metallic nuts, in particular threaded nuts and support nuts; non-metallic washers; non-metallic shell plugs for resin installation; non-metallic anchors, in particular polyester anchors; non-metallic bar anchors; non-metallic anchoring devices; non-metallic sleeves for anchoring devices; non-metallic caps for anchoring devices; non-metallic screws, in particular set screws; non-metallic hooks; non-metallic pins [pegs]; non-metallic cable clips; plastic caps for cable grips; non-metallic drive-heads for cable bolts; non-metallic wedge anchors for bolts and cables; wire, hose and pipe hangers (not of metal); non-metallic hangers for grids, meshes and non-electric screens; non-metallic mounting brackets; non-metallic ladders; non-metallic moveable steps; valves of plastic, other than machine parts; non-return valves of plastic (other than parts of machines); screws, not of metal; non-metallic poles; non-metallic fasteners; non-metallic shims; plastic clips; non-metallic nails; non-metallic holders for cables and cable bolts; anchoring elements, namely anchoring bolts of plastic and resin anchors.

Class 35: Provision of wholesale and retail services, including such services being provided online, related to products used the materials technology, mining, construction and rock technology and metal working industries; online retail services, namely, the provision and operation of an online marketplace for buyers and sellers of products for use within the mining, construction, rock excavation, rock processing, materials technology and metal working industries; business management consultancy and advisory services; inventory control; database management; updating and maintenance of data in computer databases; commercial and industrial

management assistance; advisory services for business management; business management and organization consultancy; provision of commercial and business support services relating to the sale of products for use within the mining, construction, rock excavation, rock processing, materials technology and metal working industries; provision of e-commerce services for products for use within the mining, construction, rock excavation, rock processing, materials technology and metal working industries, namely, the provision and operation of an online marketplace for buyers and sellers of the aforesaid products; e-commerce services, being business management services relating to e-commerce in the aforementioned industries; online ordering services; sales administration; provision of customer support services and information related to products for use within the mining, construction, rock excavation, rock processing, materials technology and metal working industries; information, advisory and consultancy services relating to the aforesaid services; provision of an online marketplace for buyers and sellers of downloadable digital collectibles authenticated by non-fungible tokens (NFTs); retail store services featuring virtual goods, namely, a variety of professional tools and machines crossing all industries, metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers, measurement machinery and publications for use in online virtual worlds; retail store services featuring virtual goods, namely, drill rigs, underground drill rigs, bolters, electric battery vehicles, underground loaders, underground trucks, mechanical cutting equipment, rock tools, rock drills, mining automation products, mining tools and equipment, tunneling tools and equipment for use in online virtual worlds; retail store services featuring virtual goods, namely parts and accessories to mining machines and tools, parts and accessories to construction machines and tools, crushers, screeners, breakers, demolition tools, breaker booms, buckets, attachments to crushers, attachments to screeners, compactor plates and artwork for use in online virtual worlds.

Class 36: Financial services; insurance and financial information and consultancy services; insurance services, namely, underwriting extended warranty contracts; financing, lending and loan services; credit, lending and loan services; insurance services; information, advisory and consultancy services relating to the aforesaid services; issuance of tokens of value; currency exchange services; currency trading; electronic banking via a global computer

network; electronic funds transfer.

Class 37: Repair, maintenance, assembly and installation services in the field of materials technology, mining, construction, rock processing and metal working industries; rebuild, refurbishment, upgrade services of products within the materials technology, mining, construction and rock technology and metal working industries; rental and leasing of materials technology machines, apparatus and equipment; rental and leasing of machines, apparatus and equipment for use in the field of materials technology; rental and leasing of mining machines, apparatus and equipment; rental and leasing of construction equipment; rental and leasing of rock technology machines, apparatus and equipment; rental and leasing of machines, apparatus and equipment for use in the field of rock technology; rental and leasing of metal working machines, apparatus and equipment; rental and leasing of machines, apparatus and equipment for use in the field of metal working; rental of drilling equipment for rock drilling operations in mining operations and civil construction works; rental of pumping equipment; leasing of compressors for mining, rock excavation, mining extraction of minerals, drilling and construction purposes; drilling services, namely leasing of drilling equipment and tools; installation, maintenance, building, repair, servicing and maintenance of machine tools, machinery, vehicles and equipment for mining, rock excavation, mining extraction of minerals, drilling and construction purposes; rental of machines, machine tools and equipment for mining, rock excavation, mining extraction of minerals, drilling and construction purposes; rental of excavators, bulldozers and earth moving machines; rental of compressors for mining, rock excavation, mining extraction of minerals, drilling and construction purposes; mining, rock excavation, drilling and construction services; repair of tools; operational support services, namely, installation, changing, replacement and repair of mining and rock excavation equipment and apparatus for improved performance and results; information, advisory and consultancy services relating to the aforesaid services.

Class 39: Storage of goods; storage of products for others for use within the materials technology, mining, construction and rock technology and metal working industries, including parts, fittings and components for the aforesaid; storage of products for others (stock-holding services) for use within the materials technology, mining, construction and rock technology and metal working industries, including parts, fittings and components for the aforesaid; rental of vehicles; rental of mining, rock

excavation, mineral exploration, drilling and construction vehicles; rental of mining, rock excavation, mineral exploration, drilling and construction vehicles, namely underground mining loaders and trucks.

Class 40: Treatment of materials in the nature of common metals and their alloys; coating, treatment and regrinding of metal surfaces, tools and machines; gold and silver plating; metal casting and tempering; custom manufacture of metal working products and machines and mining excavation and exploration equipment; custom assembling of products for others; fuel processing; treatment of materials in the nature of common metals and their alloys by mechanical or chemical processing; grinding; providing material treatment information; recycling and waste management services; recycling of steel and other materials and products; material treatment information; regrinding and recoating of tools and machines; custom manufacture of power-operated automation equipment; custom manufacturing of parts and component made from common metals and their alloys; information, advisory and consultancy services relating to the aforesaid services.

Class 41: Education; providing of training; education and training, including online or virtual training, in the technical field; education and training, including online training, relating to product development, manufacturing and inspection; training services, including online or virtual training services, provided in relation to the materials technology, mining, construction and rock technology and metal working industries; training services, including online or virtual training services, provided in relation to products for use within the materials technology, mining, construction and rock technology and metal working industries; practical training, including online or virtual training, in the fields of engineering and design; training services, including online or virtual training services, in the fields of engineering and design provided via simulators; training services, including online or virtual training services, related to use of software, hardware, equipment and tools for the mining and construction and rock processing industries; rental or leasing of educational materials, educational publications and educational equipment in relation to the materials technology, mining, construction and rock technology and metal working industries; providing educational materials in relation to the materials technology, mining, construction and rock technology and metal working industries; information, advisory and consultancy services relating to the aforesaid services; entertainment services, namely, providing on-line,

non-downloadable files of virtual consumer goods for use in virtual environments created for entertainment purposes.

Class 42: Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; scientific and technological services, namely, research and design in the field of tools and tooling systems for industrial metal cutting, equipment and tools, service and technical solutions for the mining and construction industries, advanced stainless steels and special alloys as well as products for industrial heating; industrial research in the field of tools and tooling systems for industrial metal cutting; computer hardware and software design; computer software development; testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; consulting services in the field of design and development of engineering processes; consumer product safety testing consultation; measurement services; remote monitoring services; chemical research and analysis; software as a service (SaaS) and platform as a service (PaaS) services featuring computer software platforms for a tool library; operational support services, namely, research, analysis and configuration of computer hardware and software systems for use in mining and rock excavation equipment and apparatus for improved performance and results; services for monitoring industrial processes; consulting services in the field of cloud computing; custom design of power-operated automation equipment; technological consulting services, namely, providing services related to geometrical inspection, measurement, and analysis of industrial, medical, and aerospace components parts and components; technological consulting services in the field of construction drilling, including technical consultancy relating to drilling tool selection, drilling procedure analysis, engineering analysis, and project feasibility analysis and planning; hosting services; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the steering and control of vehicles and crafts; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the calculation of data for machine tools and mine automation systems; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to storage and calculation of temperature, strain and vibration information; providing on-line non-downloadable software, software as a

service (SaaS) and platform as a service (PaaS) services provided in relation to the measurement of temperature, controlling temperature performance and working capacity of tube systems; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to production planning of the manufacture of industrial products; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the controlling of cutting machines; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the planning, tracking and controlling of manufacturing facility operations; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the nesting and programming of cnc cutting machines; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the provision of engineering design and engineering drafting services; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the machine tool industry; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the controlling of power-operated automation equipment; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the controlling of instruments for use in geometrical inspection of industrial components, medical devices, and aerospace applications; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the measurement, inspection, analysis and recording of three-dimensional shapes; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to the design of drill bits, modeling, simulation, testing and analysis of drill bit and rock drilling tool performance, recordation and reporting of data and drilling variables, and selection and performance of drill bits, rock drilling tools and equipment; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to early hazard detection, proximity detection and collision avoidance, worker safety, and evacuation and rescue in mining operations; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to

the monitoring of production, drilling, and hauling, overall equipment effectiveness and utilization and haulage efficiency in mining operations; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to 3D scanning, monitoring, and reporting and optimizing rock material flow and use of equipment fleet in mines and other rock excavation sites; providing on-line non-downloadable software, software as a service (SaaS) and platform as a service (PaaS) services provided in relation to products for use within the materials technology, mining, construction and rock technology and metal working industries; application service provider [ASP] and software as a service (SaaS); updating of computer software for others; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; performance monitoring services in the field of materials technology, mining, construction, rock processing and metal working industries; information, advisory and consultancy services relating to the aforesaid services; providing temporary use of non-downloadable software featuring digital works of art and digital tokens authenticated by non-fungible tokens [NFTs]; blockchain as a service [BaaS] for creating and managing non-fungible tokens [NFTs] in the form of collectible items; software as a service featuring virtual products and marketplaces; custom engineering services of products within the materials technology, mining, construction and rock technology and metal working industries.

Class 45: Licensing; licensing of wireless communication systems; licensing of intellectual property; licensing of computer software; licensing of databases; licensing of technology.

Property Office (EUIPO)

**(511) Goods/Services:**

Class 1: Chemical products used in horticulture; chemical products used in science; chemical products used in forestry; chemical products used in photography; chemical products for industrial use; chemical products for agriculture; chemical products for use in the automotive sector; chemical compounds for use in construction; active chemical ingredients for use in manufacturing pharmaceutical substances; chemical compositions and materials for use in cosmetic manufacture; chemical products for use in the petrochemical industry; chemical products for preserving foodstuffs; unprocessed artificial resins; unprocessed plastics; adhesives for industrial use; adhesives [glues] for industrial use; chemical additives; gases for industrial use; chemical polymers; chemical compounds for the manufacture of artificial resins; bases [chemical products]; reagents for industrial use; chemical products for use in adhesives [for industrial use]; chemical products for use in polyurethane manufacturing; compounds for fuel saving; vulcanizing preparations; carburizing agents; chemical preparations for use as fuel additives to improve combustion; chemical substances for use as additives for industrial lubricant oils; chemical products derived from petroleum; hydrogen.

Class 2: Paints; varnishes; lacquers; raw natural resins; resinous coatings; thinners for coatings; waterproofing coatings [paints]; textured coatings [paints]; acrylic coatings [paints]; additives for coatings; powdered coatings; primer coatings; polyurethane coatings [paints].

Class 3: Cleaning products; degreasing substances; polishing preparations; abrasives; Cleaning products for vehicles; stain removers; window cleaners; rust removing products.

Class 4: Oil; additives for petroleum [petrochemical]; biofuels; industrial oil; by-products of oil; fuels; fuels; fuel oil; gasoline; hydrogen fuel; fuel mixtures; industrial oils and greases, lubricants; fuel waxes; lubricants; non-chemical additives for lubricants; fuel oils; non-chemical additives for oils; non-chemical additives for motor fuel; fuel gas; petroleum gas; natural gas; liquid gas; gas for cooking; electrical energy; methylated spirits; combustible briquettes.

Class 6: Building and construction materials of metal; oil well metal casings; metal containers for storage and transport; metal tanks for the transport of liquefied gases; containers, of metal, for liquid fuel; gas bottles of metal; high-pressure cylinders of metal [containers]; metal cylinders for gas; cylinders [metal containers] for compressed gas or liquid air; metal storage tanks for liquefied gas; closures, of metal, for receptacles; capsules [metal containers].

Class 7: Vending machines; self-regulating fuel pumps; fuel dispensing pumps for service stations; hydrogen dispensers for service stations [gas stations]; generators of electricity; generators powered by solar energy; washing installations for vehicles; energy generation plants; electrical energy generating stations; oil refining machines; chemical treatment equipment.

Class 9: Scientific apparatus and instruments; nautical apparatus and instruments; surveying apparatus and instruments; optical apparatus and instruments; weighing apparatus and instruments; measuring apparatus and instruments; signaling apparatus and instruments; inspection apparatus and instruments; apparatus and instruments for controlling electric current; apparatus and instruments for accumulating electricity; apparatus and instruments for switching electricity; apparatus and instruments for accumulating electricity; apparatus and instruments for regulating electricity; apparatus and instruments for conducting electricity; electrical control devices for energy management; mechanisms for coin-operated apparatus; credit cards; magnetically encoded debit cards; helmets for sports; sports bags adapted to contain protective helmets; spectacles; spectacle cases; gloves for protection against accidents; power modules; measures; gas meters (measuring instruments); gasoline gauges; solar panels; solar modules; solar batteries; solar cells for electricity generation; photovoltaic apparatus for electricity generation; software; downloadable computer applications; downloadable electronic publications; hardware wallets for cryptocurrency; downloadable virtual goods, namely, chemical products, paints, varnishes, lacquers, resins, cleaning products, degreasers, cosmetics, perfumery products, industrial oils and greases, lubricants, fuels, electrical energy, eyewear, eyewear cases, accessories for mobile phones, accessories for tablets, accessories for computers, helmets, lighting apparatus and installations, parts and components of vehicles, jewelry and timepieces; downloadable virtual goods, namely, printed publications, stationery, luggage, all-purpose carrying bags, umbrellas,

parasols, backpacks, wallets, card holders, clothing, footwear, headwear, games, toys, gymnastic and sporting articles, food products, beverages, tobacco, electronic cigarettes and vaporizers, smokers' articles, matches, digital art, photographs, videos or audio recordings; downloadable software for the creation, production and modification of animated and non-animated digital designs and characters, avatars, digital overlays and skins for access and use in virtual environments, online virtual environments and extended virtual environments; downloadable software applications for issuing non-fungible tokens [NFTs]; downloadable digital image files authenticated using non-fungible tokens [NFTs].

Class 11: Lighting apparatus and installations; lighting apparatus; solar thermal collectors; gas regulators; diesel oil boilers; gas boilers; gas cleaners and purifiers; gas heating installations; heating apparatus for solid, liquid or gaseous fuels; cooking apparatus and installations; ventilation apparatus; heating apparatus; drying apparatus; sanitary apparatus and installations; steam-generating apparatus.

Class 12: Vehicles; vehicle parts and components; anti-skid chains; vehicle covers; tire repair equipment; patches for repairing vehicle tires; scratch protectors for vehicles.

Class 14: Timepieces; key rings and chains for keys and their charms; pins [jewelry]; jewelry cases [boxes and cases].

Class 17: Unworked or semi-worked rubber; raw or partly processed mica; raw or semi-processed gum; unprocessed and semi-processed gutta-percha; unprocessed and semi-processed asbestos; unprocessed and semi-processed rubber substitutes; unprocessed and semi-processed gutta-percha substitutes; unprocessed and semi-processed gum substitutes; unprocessed and semi-processed asbestos substitutes; unprocessed and semi-processed mica substitutes; semi-processed plastic materials; semi-processed resins; materials and articles for insulation; latex; glass fiber and glass wool; insulating coatings; rubber material for retreading tires.

Class 18: Luggage; multi-purpose transport bags; umbrellas and parasols; backpacks; wallets; card cases.

Class 19: Pitch, tar, bitumen and asphalt; semi-processed or raw non-metallic mineral materials, including stone, clay, bitumen or concrete, or substitutes therefor; bituminous compositions; bituminous emulsions; building materials,

not of metal; non-metallic rigid pipes for building; transportable buildings, not of metal; monuments, not of metal.

Class 25: Clothing; footwear; headwear; sportswear; footwear for sporting activities; clothing authenticated using non-fungible tokens [NFTs].

Class 28: Toys, games and playthings; toy vehicles; model vehicles; scale model vehicles; gymnastic and sporting articles.

Class 35: Advertising; promoting products and services via sponsorship; advertising, including promotion of third-party goods and services by means of sponsoring arrangements and license agreements related to international sporting events; commercial business management; commercial administration; services in connection with bonus, incentive and customer loyalty programs; billing services in the energy sector; energy price comparison services; retail and wholesale services, including via global computer networks, in relation to chemical products, paints, varnishes, lacquers, resins, cleaning products, degreasers, cosmetics, perfumery products, industrial oils and greases, lubricants, fuels, electrical energy, eyewear, eyewear cases, accessories for mobile phones, accessories for tablets, accessories for computers, audio apparatus, helmets, lighting apparatus and installations, parts and components of vehicles, jewelry and timepieces, printed publications, stationery, luggage, all-purpose carrying bags, umbrellas, parasols, backpacks, wallets, card holders, drinking glasses, beverage containers and barware, containers for storing food, pillows, cushions, clothing, footwear, headwear, games, toys, playthings, sporting and gymnastic articles, decorative items for parties, novelty items for parties, food products, beverages, tobacco, electronic cigarettes and vaporizers, smokers' articles, matches; retail and wholesale services in stores and also via global computer networks in relation to downloadable digital files authenticated by non-fungible tokens [NFTs]; retail and wholesale services in stores and via global computer networks in relation to physical and virtual goods such as chemical products, paints, varnishes, lacquers, resins, cleaning products, degreasers, cosmetics, perfumery products, industrial oils and greases, lubricants, fuels, electrical energy, eyewear, eyewear cases, accessories for mobile phones, accessories for tablets, accessories for computers, audio apparatus, helmets, lighting apparatus and installations, parts and components of vehicles, jewelry and timepieces, printed publications, stationery, luggage, all-purpose carrying bags,

umbrellas, parasols, backpacks, wallets, card holders, drinking glasses, beverage containers and barware, containers for storing food, pillows, cushions, clothing, footwear, headwear, games, toys, playthings, sporting and gymnastic articles, decorative items for parties, novelty items for parties, food products, beverages, tobacco, electronic cigarettes and vaporizers, smokers' articles, matches.

Class 36: Insurance services; financial affairs; monetary affairs; credit card and payment card services; issuance of electronic payment cards associated with bonus and reward schemes; fundraising and financial sponsorship.

Class 37: Service stations [refueling and maintenance]; Recharging of electric vehicles; Vehicle battery charging services; natural gas refueling services for vehicles; hydrogen refueling services for vehicles; charging of batteries and energy storage devices and rental of equipment therefor; maintenance, overhaul and repair of electrical energy production apparatus and installations; battery and accumulator recharging; repair or maintenance of gas station equipment; repair and maintenance of vehicles; cleaning of vehicles; vehicle maintenance; installation of electrical energy and lighting systems; maintenance and repair of gas and electricity installations; installation of lighting systems; installation, maintenance and repair of HVAC equipment (heating, ventilation and cooling); repair services for gas supply systems; installation of solar energy systems; installation of solar energy panel systems for residential use; maintenance and repair of solar energy installations; maintenance and repair of energy production installations; technical building installations; installation, maintenance and repair of alarms and security systems; construction of oil and gas storage installations.

Class 39: Fuel distribution services; fuel delivery services; distribution of energy; renewable energy distribution; storage of electricity; electricity supply services; distribution of energy for heating and cooling buildings; storage; gas distribution services; storage of gas; information and advisory services relating to energy distribution; packaging and storage of merchandise; fuel supply services [storage]; vehicle parking services; storage of vehicles; transport; fuel transportation; vehicle rental; car-sharing services.

Class 40: Processing of oil; waste treatment; recycling; energy production; gas production services; gas treatment services; electricity generation; generation of electricity

from solar energy; generation of electrical energy from renewable energy sources; leasing of equipment for energy generation; rental of equipment for treatment and transformation of materials, production of energy and custom manufacturing; consulting in connection with electrical energy generation; information, advice and consultancy relating to recycling of waste and trash; processing of rubber; providing information relating to the processing of rubber.

Class 41: Education; training; entertainment services; sporting and cultural activities; organization and conducting of congresses; publication of books; entertainment club services; electronic publications (not electronically downloadable); organization of conferences, exhibitions and competitions; organization of sporting events, competitions and sports competitions; simulated restaurant services provided in virtual environments for entertainment purposes; rental of downloadable digital image files authenticated using non-fungible tokens [NFTs].

Class 42: Scientific and technological services; technological research; scientific services and design relating thereto; technological services and design related to the above; scientific research; industrial analysis and research services; energy auditing; technical projects; programming of energy management software; engineering services in the field of energy technology; consultancy regarding energy saving; certification services for energy efficiency in buildings; professional consultancy relating to energy efficiency in buildings; design and development of renewable energy generation systems; conducting research and technical project studies relating to the use of natural energy; provision of information regarding research and technical project studies relating to the use of natural energy; design and development of software for controlling, regulating and monitoring solar energy systems; engineering services; design and development of energy distribution networks; oil and gas exploration and search; conducting feasibility studies relative to gas exploitation; technological services; advisory services relating to energy consumption; advice with respect to energy saving; consultancy, advice and information relating to computer services; development and design of computer hardware; software design and development; software as a Service [SaaS]; platform as a service [PaaS]; development of energy and electricity management systems; technical project study; geological services; petroleum prospecting; oil-well testing; oil-field surveys; analysis services for the exploration of petroleum deposits; testing of chemical

products; analysis of the behavior of chemical substances; processing and evaluation of chemical syntheses; research in the field of hydrogen fuel cells; providing online non-downloadable software for minting non-fungible tokens [NFTs].

Class 43: Services for providing food and beverages; providing food and beverages; cafeteria services; catering services; restaurant information services; providing restaurant reviews; providing information related to restaurants.

Class 45: Legal services; licensing services; licensing of industrial property rights; licensing of intellectual property rights; security services for physical protection of property and persons; online social networking services.

|                                          |                                                                                                                                                                                   |                                                                                      |

**(310)(320)(330): Priority:**

**(511) Goods/Services:**

Class 9: Computer hardware; downloadable computer software for cloud infrastructure management and automation and accessing cloud-based scalable computing resources and data storage; downloadable computer software for virtualization, managing and deploying virtual machines to a cloud computing platform, cloud computing, running cloud computing based applications, and monitoring cloud and application performance; downloadable computer software for accessing and operating cloud computing networks and applications; downloadable communications software for connecting computer network users and global computer networks; downloadable computer software for data processing, data transfer, and data backup, recovery and archiving; downloadable computer software for creating, configuring, provisioning, managing and scaling databases; downloadable computer software for application and database integration; downloadable computer software for video streaming; downloadable game and game engine software; downloadable computer software to manage, connect, and operate internet of things (IOT) electronic devices; downloadable computer software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high-level services in the cloud; downloadable computer software development tools; downloadable software development kits (SDK); downloadable computer software for application development, testing, deployment and management; downloadable computer software featuring artificial intelligence (AI) and large language models (LLMs) for integrated development software, use in an integrated development environment (IDE), for automating test-driven development (TDD), code reviews, and documentation generation, and for software development productivity tools; downloadable chatbot software for simulating conversations; downloadable computer software featuring artificial intelligence (AI) for software development, computer programming, use as an application programming interface (API), building, training and deploying machine learning (ML) models, building and scaling generative AI applications, industrial machine

monitoring and report-generation, machine learning, robotic functions, computer vision, natural language processing, facial, image and speech recognition, processing, and analysis, home automation, workflow automation, cybersecurity, fraud detection, generating personalized recommendations, enabling virtual assistants and chatbots, use as a search engine, database management, language translation, medical diagnosis, scientific research, managing and verifying financial transactions, creating and analyzing financial models, document processing and text editing, transportation and logistics solutions, gaming, music and sound production, analytics, data analysis, advertising, digital content creation, automating business processes and decision-making, supply chain management, research in the field of pharmaceuticals and life sciences, healthcare and medication services, scheduling and appointments, point-of-care services, business administration, and planning, allocating, and deploying energy and utilities; downloadable or recorded computer software for the transmission of data, information, voice, graphics, sound, and video; downloadable computer software for operating, installing, testing, diagnosing, and managing telecommunications equipment and accessing telecommunications networks; broadband wireless equipment, namely, telecommunications base stations for wireless networking and communications applications; downloadable computer software for use in data management using blockchain technology; downloadable or recorded operating system software for robots; downloadable or recorded software for connecting, operating, integrating, controlling, and managing robots and autonomous vehicles; downloadable or recorded computer software for edge computing and local storage and execution of software and data enabling local operability when disconnected from the cloud; cameras; camera systems for deep learning, machine learning, artificial intelligence, neural networks, and machine vision; semiconductors; integrated circuits; computer chips; computer central processing units; circuit boards; electronic circuit cards; integrated circuit modules.

Class 42: Cloud hosting provider services; hosting of digital content on the Internet; cloud hosting of electronic databases and virtual computing environments; server hosting; hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up cloud computing environments for others; hosting, managing, developing, analyzing, and

maintaining applications, software, and websites in the fields of ecommerce, online payments, order queuing, website design, data storage and shared computing capacity scaling services; computer time sharing services; providing virtual computer systems, virtual computer environments through cloud computing, virtual data storage and caching to others, and providing electronic data storage in virtual environments, electronic storage of files, providing web servers and co-location servers to third party cloud computing and data storage facilities; scaling services, namely, providing variable computing and electronic data storage capacity to others; administering and maintaining virtual computing environments for others; computer software rental; planning, design and implementation of computer technologies for others; database design and development; software design, development, research, maintenance, and updating; software engineering services; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; electronic data storage; cross platform conversion of digital content into other forms of digital content; digital compression of computer data; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; providing online non-downloadable communications software for connecting computer network users and global computer networks; providing online non-downloadable software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance, and for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics, computer network management and automation, monitoring computer network access and activity, network access monitoring, network threat detection, network security, cryptography, and user cryptography computing environment; providing temporary use of online non-downloadable cloud computing software for use in the field of IT governance and risk management; providing authentication services via online non downloadable software for establishing and transmitting security credentials for domain name services; computer services, namely, unauthorized user and unauthorized software intrusion detection and protection; monitoring of computer

systems and databases for security purposes in the nature of protecting data and information from unauthorized access; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; computer services, namely, web traffic filtering; providing search engines for obtaining data via communications networks; creating indexes of computer network based information, sites, and other resources available on global computer networks for others; hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking services in the field of technology, artificial intelligence, machine learning, and cloud computing; research and development in the fields of robotics software and applications, artificial intelligence, artificial intelligence technology, machine learning and deep learning; consulting and providing information in the fields of information technology, cloud computing, web services, software, artificial intelligence, artificial intelligence technology, machine learning, deep learning, software development, game development, database design and development and analytics, data storage, data centers, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); technical consulting in the field of artificial intelligence (AI) software customization; technology services, namely, technological consulting, information technology consulting, computer technology consulting and computer software consulting all in the fields of deep learning, machine learning, artificial intelligence, neural networks and machine vision; providing online non-downloadable software development tools; providing online non-downloadable software for managing data containers and data clusters; providing online non-downloadable software for managing, connecting, and operating internet of things (IOT) electronic devices and enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high level services in the cloud, application development, testing, deployment and

management; providing on-line non-downloadable software featuring artificial intelligence (AI) and large language models (LLMs) for integrated development software, use in an integrated development environment (IDE), for automating test-driven development (TDD), code reviews, and documentation generation, and for software development productivity tools; computer project management services; providing online non-downloadable software for project management, collaboration, and scheduling; providing online non-downloadable computer software for the transmission of data, information, voice, graphics, sound, and video; providing online non-downloadable computer software for operating, installing, testing, diagnosing, and managing telecommunications equipment and accessing telecommunications networks; providing online non-downloadable software development tools for creating blockchain-based applications; customizing, maintaining, and updating computer software used by others to develop blockchain-based software applications; hosting of blockchain databases; authentication of data using blockchain technology; providing online non-downloadable software for recognizing, identifying, searching, processing, analyzing, understanding, summarizing, formatting, editing, extracting, and generating speech, voice, audio, text, conversations, computer code, graphics, images, and videos, facial and optical character recognition, converting text to speech, and image analysis, identification, processing, conversion, cropping, resizing, and enhancement; providing online non-downloadable software for processing, converting, transcoding, encoding, decoding, encrypting, decrypting, distributing, and manipulating digital video, image, and audio files; providing online non-downloadable software for video streaming and for high speed formatting and processing of audio and video streams, deploying live and on demand video content, provisioning and dynamically scaling video processing, delivery, and storage services, inserting and removing advertising and other content into video streams, digital rights management, and time shifted television viewing; providing online non-downloadable software for processing and generating text, voice, images, videos, and computer code in response to natural language prompts, visual prompts, text, speech, images, and/or video, for natural language recognition, processing, analysis, understanding, and generation, for speech recognition, translation, transcription, and translating speech and text from one language to another, and for using and creating generative AI models; providing online non-downloadable software for desktop and application streaming, virtualization, managing, and deploying virtual machines to

a cloud computing platform, running cloud computing based applications, monitoring cloud and application performance, event logging, reporting, analysis, and alert generation; providing online non-downloadable software for data processing, data warehousing, data protection, data security, data transfer and migration, data backup, recovery and archiving, and collecting, editing, formatting, modifying, organizing, structuring, systematizing, indexing, processing, synchronizing, integrating, monitoring, transmitting, storing, caching, retrieving, querying, analyzing, replicating, extracting, sharing, and controlling access to data and information; providing online non-downloadable computer software for accessing and operating cloud computing networks and applications; providing online non-downloadable software for database management, creating, configuring, provisioning and scaling databases, improving database performance, logging changes within a database, searching databases, creating searchable databases of information and data, and configuring, provisioning, and scaling data cache storage for databases; providing online non-downloadable software for application and database integration; providing online non-downloadable software for operating and managing call centers and contact centers and providing customer service and customer support; providing online non-downloadable software for customer relationship management (CRM); providing online non-downloadable chatbot software for simulating conversations; providing online non-downloadable software for managing software development projects and teams; providing online non-downloadable software consisting of foundational AI models, namely, large artificial intelligence models trained on a large quantity of data; providing online non-downloadable software for use in machine learning and collecting, analyzing, and organizing data in the fields of deep learning, big data analysis, and cloud infrastructure management and automation; providing online non-downloadable software, namely, computer software featuring artificial intelligence (AI) for software development, computer programming, use as an application programming interface (API), building, training and deploying machine learning (ML) models, building and scaling generative AI applications, industrial machine monitoring and report-generation, machine learning, robotic functions, computer vision, natural language processing, facial, image, and speech recognition, home automation, workflow automation, cybersecurity, fraud detection, generating personalized recommendations, enabling virtual assistants and chatbots, use as a search engine, database management, language translation, medical diagnosis,

scientific research, managing and verifying financial transactions, creating and analyzing financial models, document processing and text editing, transportation and logistics solutions, gaming, music and sound production, analytics, data analysis, advertising, digital content creation, automating business processes and decision-making, implementing multi-agent systems, workflow management, supply chain management, research in the field of pharmaceuticals and life sciences, healthcare and medication services, scheduling and appointments, point-of-care services, business administration, and planning, allocating, and deploying energy and utilities; providing online non-downloadable game and game engine software; providing online non-downloadable ecommerce software to allow users to perform electronic business transactions via a global computer network; providing online non-downloadable software that automates the processing of unstructured, semi-structured, and structured information and data stored on computer networks and the Internet, provides real time, integrated business management intelligence by combining information from various databases, and provides access to cloud based scalable computing resources and data storage; providing online non-downloadable business analytics software for collecting and analyzing data to facilitate business decision-making; programming of computer software for others; consulting services in the field of quantum computing; research in the field of quantum computing; providing online non-downloadable computer software for connecting, operating, integrating, controlling, and managing robots and autonomous vehicles; evaluating and testing the environmental qualities and impact of products and services; scientific research relating to the impact of products and services; leasing of data center facilities; evaluation of the knowledge, skills and abilities of others in the field of technology, software, cloud computing, artificial intelligence, and machine learning to determine conformity with certification standards; design of semiconductors, integrated circuits, computer chips and central processing units for others.

Class 9: Downloadable computer software using artificial intelligence (AI) for machine learning (ML) and deep learning (DL) for customer relationship management (CRM), customer service, customer engagement, customer data platform, contact center and helpdesk functionality, communications, processing data, generating customer marketing campaigns and journeys, predicting customer communication channel preferences, communication date and time optimization, an implementation assistant for data tracking, testing and experimentation, phone number quality scoring, fraud detection, fraud identification, fraud prevention and response, intelligent channel orchestration, live traffic monitoring, traffic optimization, live traffic routing, multi-tenancy, market throughput, traffic shaping, traffic insights, intelligent capacity matching, anomaly detection, a no-code builder for conversational artificial intelligence (AI), messaging, creating postings, file sharing, calendaring, telephone call processing, web-based telephony, Internet telephony (VoIP) services, voicemail, facsimile services, sales automation, sales performance management, field services management, mapping and route planning, managing online content, deploying

customized interactive content, optimization of online websites for third parties for marketing purposes, big data and business data analysis and visualization, complex event processing, mining the most relevant information from disparate data sources, providing automated solutions to enable organizations to integrate disparate data and translate and structure that data into actionable insights, creating searchable databases of information and data, security and authentication, social media management and publication, data storage, collaboration, e-commerce, software and application development, and speech analysis; downloadable computer software using artificial intelligence (AI) for machine learning (ML), deep learning (DL), statistical learning, data mining, contextual prediction, personalization, business predictive analytics, business predictive modeling, business intelligence, and intelligent recommendations and decision advantage; downloadable computer software using artificial intelligence (AI) for software bots, software assistants, virtual agents, and chatbots; downloadable software, downloadable cloud-based software, and software in the nature of a downloadable mobile application for the generation, processing, understanding and analysis of multi-modal machine learning (ML) based on language, text, speech, images, videos, sounds, events, and tasks; downloadable software, downloadable cloud-based software, and software in the nature of a downloadable mobile application for generating and executing autonomous tasks in response to exposure to data, and building, managing, updating, developing, training, evaluating, and monitoring generative user experiences powered by machine learning (ML), deep learning (DL), and artificial intelligence (AI); downloadable telecommunication and telephony software for use in computerized telephony applications; downloadable computer software development tools; downloadable application programming interface (API) software; downloadable computer software for use in software development; home and office automation systems comprising of computer hardware and downloadable software, wireless and wired controllers, and electric control devices for automating the monitoring and control of appliances, power, lighting, HVAC, and security via wireless Internet; subscriber identification module (SIM) cards for Internet of things (IOT) enabled devices; Microcontrollers for Internet of things (IoT) enabled devices; downloadable computer software programs for connecting remotely to computers or computer networks; computer hardware and downloadable software for enhancing and providing real-time transfer, transmission,

reception, processing and digitizing of audio and video graphics information; computer hardware for telecommunications.

Class 35: Providing business marketing and advertising services for enterprises with large volumes of data that must be leveraged for intelligent recommendations and decision advantage through data science, namely, artificial intelligence (AI), machine learning (ML) and deep learning (DL) technologies and algorithms; business management services in the fields of customer relationship management (CRM), marketing automation, sales automation, sales performance management, customer service and support, customizable marketing and advertising, managing online content, deploying customized interactive content, optimization of online websites for third parties for marketing purposes, predictive analytics, big data and business data analysis and visualization, complex event processing, artificial intelligence (AI), machine learning (ML), and deep learning (DL), mining the most relevant information from disparate data sources, providing automated solutions to enable organizations to integrate disparate data and translate and structure that data into actionable insights, creating searchable databases, security and authentication, social media management and publication, data storage, collaboration, e-commerce, and software and application development, programming, and implementation; advertising, promotion, and marketing services in the nature of using artificial intelligence (AI) for auto-generating content for marketing campaigns.

Class 38: Voice over internet protocol (VOIP) services; communication services, namely, transmission of data from cloud networks for telecommunications networks via the Internet; transmission of electronic mail and electronic messaging services; delivery of messages by electronic transmission for others; telecommunication services, namely, computerized telephony services; providing telecommunication connections to internet or databases; providing telecommunications connections to a global computer network; telecommunication services, namely, transmission of data for internet of things (IOT) enabled devices via global communication networks; telecommunications services, namely, providing IOT enabled devices access to a global computer network.

Class 42: Software as a service (SaaS) services featuring software using artificial intelligence (AI) for machine learning (ML) and deep learning (DL) for customer relationship management (CRM), customer service and

support, customer engagement, customer data platform, workforce management, contact center and helpdesk functionality, marketing automation, sales automation, sales performance management, field services management, mapping and route planning, customizable marketing and advertising, managing online content, deploying customized interactive content, optimization of online websites for third parties for marketing purposes, predictive analytics, big data and business data analysis and visualization, complex event processing, data mining, providing automated solutions to enable the integration of disparate data and translation and structuring of that data into actionable insights, creating searchable databases, security and authentication, social media management and publication, data storage, collaboration, e-commerce, software and application development, communications, communication routing, cloud communication services, data science, statistical learning, contextual prediction, predictive modeling, business intelligence, intelligent recommendations and decision advantage, facilitating communication and actions between humans and artificial intelligence (AI) chatbots and agents and between artificial intelligence (AI) chatbots and agents, a no-code builder for conversational artificial intelligence (AI), monitoring generative user experiences, generating and executing autonomous tasks, data mapping, automated personal information and personally identifiable information (PII) redaction, voice and speech recognition, providing insights and smart recommendations about and for customers, conversational analytics, creating actionable recommendations about operational tasks such as identifying trends in customer interactions and recommending changes to customer support process, software bots, software assistants, virtual agents, chatbots, task automation, creating postings, file sharing, calendaring, telephone call processing, web-based telephony, internet telephony (VoIP) services, voicemail, facsimile services, providing call center quality management, compliance enforcement by providing generated feedback and conversational insights to agents and supervisors, phone number quality scoring, fraud detection, fraud identification, fraud prevention, fraud response, intelligent channel orchestration, live traffic monitoring, traffic optimization, live traffic routing, multi-tenancy, market throughput, traffic shaping, traffic insights, intelligent capacity matching, anomaly detection, data compliance, auditing, data tracking, generating marketing campaigns, and customer journeys, predicting customer communication channel preferences, communication date and time optimization, testing and experimentation, updating website

content, interpreting sentiment, summarizing conversations, generating responses, building differentiated large language model (LLM) applications using context from customer data; Application service provider (ASP) services featuring application programming interface (API) software for artificial intelligence (AI), machine learning (ML), deep learning (DL), statistical learning, and data mining to enable contextual prediction, personalization, predictive analytics, predictive modeling, visualization, business intelligence, and intelligent recommendations and decision advantage; research and development services in the fields of multi-modal content understanding and generation, natural language processing (NLP), artificial intelligence (AI), and machine learning (ML); computer services, namely, software as a service (SaaS), platform as a service (PaaS), data mining, data warehousing, computer software design, and computer software consultation, featuring software for artificial intelligence (AI), machine learning (ML), and deep learning (DL); software as a service (SaaS) featuring software for a framework of intelligent data science-based services using artificial intelligence (AI) and machine learning (ML) for improving digital experiences in the fields of design, document management and delivery, and marketing and advertising; providing application programming interface (API) software for integration of artificial intelligence (AI) and machine learning (ML) into websites and online software; cloud computing services featuring software for artificial intelligence (AI), machine learning (ML), and deep learning (DL); platform as a service (PaaS) services featuring software for artificial intelligence (AI), machine learning (ML), and deep learning (DL); scientific and technical research, namely, scientific and product research in the fields of artificial intelligence (AI), machine learning (ML), and deep learning (DL); application service provider featuring application programming interface (API) software and on-line, non-downloadable software development tools for use in enabling cloud communication services; platform as a service (PaaS) featuring application programming interface (API) software and on-line, non-downloadable software development tools for cloud communication services; software as a service (SaaS) services featuring software for electronic mail and digital messaging; providing temporary use of online non-downloadable telecommunications software for computerized telephony services; software as a service (SaaS) services featuring software for business analytics, business intelligence, customer relationship management, and customer engagement; platform as a service (PaaS) services featuring software for business analytics, business intelligence, customer relationship

management, and customer engagement; providing temporary use of non-downloadable software for use in customer relationship management (CRM); providing temporary use of on-line non-downloadable software development tools; computer software development in the field of mobile applications; software as a service (SaaS) services featuring software for providing data analytics, business analytics, business intelligence and for collecting and analyzing data in the fields of business, marketing, advertising, brand development, sales, customer service, customer engagement, cloud computing, customer information, customer relationship management, and security and authentication; application service provider featuring application programming interface (API) software for communications, customer engagement, data analytics, business intelligence, and customer relationship management; providing online, non-downloadable software for managing, collecting, integrating, and sharing a wide variety of data and information from various sources; application service provider (ASP), namely, providing software tools for computer software development; platform as a service (PaaS) featuring computer software platforms for retrieving, tracking, analyzing, testing, measuring and managing data, customer data and customer interactions in the fields of business, marketing, advertising, brand development, sales, customer service, customer engagement, cloud computing, customer information, customer relationship management, and security and authentication; providing temporary use of on-line non-downloadable software development tools for the creation of client interfaces; providing temporary use of on-line non-downloadable cloud computing software for providing business intelligence, business data analytics, and for collecting and analyzing business data; software as a service (SaaS) services featuring software for collecting, managing and reporting on data from connected computer systems, digital mobile devices, and Internet of Things (IoT) devices; software as a service (SaaS) services featuring software for controlling and monitoring of cloud computing networks and Internet of Things (IoT) devices; infrastructure as a service (IaaS) services featuring software for controlling and monitoring Internet of Things (IoT) devices and networks.

Thimphu,, Bhutan

**Representation of Mark**

**(750) Representative:**

**(526) Disclaimer:** No disclaimer is made to the exclusive use of word "Namkoe" or any other elements of the mark separately. Protection is claimed for the trademark as a whole, in the form and colours as represented in the application.

**(571) Colour Claims:** The mark consists of a stylized heart device placed within a square-shaped icon with rounded corners, featuring a multi coloured gradient background in shades of blue, green, yellow, orange, red, and pink. The central heart design includes a white outline with a dark blue inner heart and a

smaller white heart element. Beneath the device appears the word “Namkoe” in stylized white script. Claimed Colours: The color blue conveys trust, calmness, and reliability. The colour green represents growth, harmony, and freshness. The colour yellow reflects optimism, warmth, and positivity. The colour orange signifies friendliness, creativity, and enthusiasm. The colour red symbolizes passion, strength, and energy. The colour pink conveys affection, compassion, and care. The colour white in the heart outline and wording represents purity, simplicity, and clarity. The dark blue/navy blue inner heart enhances depth, contrast, and stability. All of the above colours are claimed as distinctive features of the trademark.

**(310)(320)(330): Priority:**

**(511) Goods/Services:**

Class 42: Design and development of computer software and mobile applications for online dating, matchmaking, and social networking; providing temporary use of non-downloadable software (Software as a Service – SaaS) for dating, relationship matching, and user interaction; platform as a service (PaaS) featuring software platforms for connecting individuals and facilitating communication between users; Hosting of digital platforms and online portals for dating and social networking services; Development of algorithms for user matching, compatibility analysis, and personalized recommendations; data security services, including encryption and protection of user data and communications; cloud computing services for storage and management of user profiles, messages, and multimedia content; technical support, maintenance, and updating of dating and social networking software; design and development of user interfaces and user experience for mobile and web-based dating platforms; quality control and testing of software applications for performance, reliability, and security.

| <b>(310)(320)(330): Priority:</b>        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                     |
| <b>(511) Goods/Services:</b>             | Class 9: security tokens [encryption devices]; Computer hardware, namely, firewalls; Downloadable computer software for the creation of firewalls; computer software and firmware for protecting the integrity of computer hardware, software, networks and electronic data; computer software and firmware for analyzing and filtering of network traffic and for the detection, filtering, and/or removal of computer intrusions, viruses, spam, or other malicious applications or threats, and for providing virtual private networking and security functions; Electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of computer intrusions, viruses, spam, or other malicious applications or threats and security functions protecting the integrity of computer hardware, software, networks and electronic data, provided via computer and communication networks; Computer software for protecting computer systems and mobile devices and cloud edge, to promote network efficiency, security, and integrity, for the detection, filtering and removal of computer intrusions, viruses, spam, spyware, malware and other malicious applications or threats; network data processors for use in the field of data and network security to accelerate data traffic and to accelerate firewall and VPN functions; embedded computer software for use in the encryption and decryption of digital files and digital data sold as a component of computer hardware and data processing equipment; Microcontrollers for internet of things (IoT) enabled devices; Home automation hubs comprised of voice-activated speakers, computer hardware, and recorded |                                                                                     |

software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Smart home hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Home automation hubs using artificial intelligence (AI) comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Downloadable software for connecting, operating, and managing networked cars, kitchen appliances, HVAC systems in the internet of things (IoT); User-facing, network-connected hardware items for use in managing edge sensors such as temperature, humidity, noise, air quality in IoT within Enterprise setting (non-residential); User-facing, network-connected hardware items for use in controlling points of ingress and egress such as Door Access, Security Checkpoints, Server Room access and other workspaces in IoT within Enterprise setting (non-residential); Downloadable software for connecting, operating, and managing networked devices to collect data within workspace such as temperature, humidity, air quality and operating in the internet of things (IoT) within Enterprise (non-residential); Downloadable mobile-based software for connecting, operating, and managing networked devices and sensors such as power measurement, environmental metrics operating in the internet of things (IoT) with Enterprise (non-residential); User-facing, network-connected hardware items for use in controlling, measuring, managing and optimizing power consumption and power control within IoT Enterprise setting (non-residential); Artificial Intelligence and Machine Learning-based software providing user insights via collected IoT data for the operationalization and management of edge-compute device hardware such as cameras, sensors and actuators within IOT Enterprise space (non-residential); Network servers; Internet servers; Computer servers; Digital media servers; Communications servers [computer hardware]; Servers for web hosting; Downloadable computer software designed to be deployed on web servers for data analysis, storage, querying, and backup; Recorded computer software designed to be deployed on web servers for data analysis, storage, querying, backup, and prevention of data loss and leakage; Network routers; Ethernet switches; Wireless access points; Computer hardware; Computer software for planning, configuring, deploying, operating, managing, and

monitoring of communication devices; Data storage apparatus; VOIP phones; Video recorders; Electric switches; Electric plugs; Video Cameras; Video Decoder; Parking Management Devices; Door Access; Attendance equipment; Intercom; Alarm devices; server for storage and management.

Class 42: computer security consultancy; internet security consultancy; data security consultancy; telecommunication network security consultancy; computer software and network security research and development services; computer software and network security management and analysis, namely, remote and on-line system management and analysis of the information technology (IT) systems and networks of others; computer software and network security management and analysis services that allows users to view risk posture and network performance, to track network activity and to access reports regarding the same; computer network security management and analysis, namely, scanning and penetration testing of computers and networks to assess information security vulnerability; computer network security management and analysis in the field of updating of computer software relating to computer security and prevention of computer risks; technical support services related to the provision of antivirus, anti-spam, anti-spyware, anti-malware, web-content filtering and/or intrusion detection and prevention for network cloud edge and computer security; troubleshooting of computer software and hardware problems and monitoring of network systems; Providing temporary use of non-downloadable cloud-based software for connecting, operating, and managing networked cars, kitchen appliances, HVAC systems in the internet of things (IoT); server hosting; Rental of web servers; Infrastructure as a service (IAAS) services, namely, hosting servers for use by others; Computer co-location services, namely, providing facilities for the location of computer servers with the equipment of others; Computer services, namely, providing virtual and non virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers of variable capacity to third party computing and data storage facilities; Computer services, namely, providing virtual and non-virtual application, load balancing, call flow, IPTV flow, surveillance flow servers to others; Technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems; Infrastructure as a service (IAAS) services, namely, hosting software for operating virtual servers for use by others.

| <b>(511) Goods/Services:</b>             | Class 9: security tokens [encryption devices]; Computer hardware, namely, firewalls; Downloadable computer software for the creation of firewalls; computer software and firmware for protecting the integrity of computer hardware, software, networks and electronic data; computer software and firmware for analyzing and filtering of network traffic and for the detection, filtering, and/or removal of computer intrusions, viruses, spam, or other malicious applications or threats, and for providing virtual private networking and security functions; Electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of computer intrusions, viruses, spam, or other malicious applications or threats and security functions protecting the integrity of computer hardware, software, networks and electronic data, provided via computer and communication networks; Computer software for protecting computer systems and mobile devices and cloud edge, to promote network efficiency, security, and integrity, for the detection, filtering and removal of computer intrusions, viruses, spam, spyware, malware and other malicious applications or threats; network data processors for use in the field of data and network security to accelerate data traffic and to accelerate firewall and VPN functions; embedded computer software for use in the encryption and decryption of digital files and digital data sold as a component of computer hardware and data processing equipment; Microcontrollers for internet of things (IoT) enabled devices; Home automation hubs comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected |                                                                                     |

lighting apparatus and home security alarms; Smart home hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Home automation hubs using artificial intelligence (AI) comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; Downloadable software for connecting, operating, and managing networked cars, kitchen appliances, HVAC systems in the internet of things (IoT); User-facing, network-connected hardware items for use in managing edge sensors such as temperature, humidity, noise, air quality in IoT within Enterprise setting (non-residential); User-facing, network-connected hardware items for use in controlling points of ingress and egress such as Door Access, Security Checkpoints, Server Room access and other workspaces in IoT within Enterprise setting (non-residential); Downloadable software for connecting, operating, and managing networked devices to collect data within workspace such as temperature, humidity, air quality and operating in the internet of things (IoT) within Enterprise (non-residential); Downloadable mobile-based software for connecting, operating, and managing networked devices and sensors such as power measurement, environmental metrics operating in the internet of things (IoT) with Enterprise (non-residential); User-facing, network-connected hardware items for use in controlling, measuring, managing and optimizing power consumption and power control within IoT Enterprise setting (non-residential); Artificial Intelligence and Machine Learning-based software providing user insights via collected IoT data for the operationalization and management of edge-compute device hardware such as cameras, sensors and actuators within IOT Enterprise space (non-residential); Network servers; Internet servers; Computer servers; Digital media servers; Communications servers [computer hardware]; Servers for web hosting; Downloadable computer software designed to be deployed on web servers for data analysis, storage, querying, and backup; Recorded computer software designed to be deployed on web servers for data analysis, storage, querying, backup, and prevention of data loss and leakage; Network routers; Ethernet switches; Wireless access points; Computer hardware; Computer software for planning, configuring, deploying, operating, managing, and monitoring of communication devices; Data storage apparatus; VOIP phones; Video recorders; Electric

switches; Electric plugs; Video Cameras; Video Decoder; Parking Management Devices; Door Access; Attendance equipment; Intercom; Alarm devices; server for storage and management.

Class 42: computer security consultancy; internet security consultancy; data security consultancy; telecommunication network security consultancy; computer software and network security research and development services; computer software and network security management and analysis, namely, remote and on-line system management and analysis of the information technology (IT) systems and networks of others; computer software and network security management and analysis services that allows users to view risk posture and network performance, to track network activity and to access reports regarding the same; computer network security management and analysis, namely, scanning and penetration testing of computers and networks to assess information security vulnerability; computer network security management and analysis in the field of updating of computer software relating to computer security and prevention of computer risks; technical support services related to the provision of antivirus, anti-spam, anti-spyware, anti-malware, web-content filtering and/or intrusion detection and prevention for network cloud edge and computer security; troubleshooting of computer software and hardware problems and monitoring of network systems; Providing temporary use of non-downloadable cloud-based software for connecting, operating, and managing networked cars, kitchen appliances, HVAC systems in the internet of things (IoT); server hosting; Rental of web servers; Infrastructure as a service (IAAS) services, namely, hosting servers for use by others; Computer co-location services, namely, providing facilities for the location of computer servers with the equipment of others; Computer services, namely, providing virtual and non virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers of variable capacity to third party computing and data storage facilities; Computer services, namely, providing virtual and non-virtual application, load balancing, call flow, IPTV flow, surveillance flow servers to others; Technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems; Infrastructure as a service (IAAS) services, namely, hosting software for operating virtual servers for use by others.
